

Agency Activity Inventory by Statewide Result Area

Appropriation Period: 2005-07 Activity Version: 2005-07 Carry Forward Level

Statewide Result Area: Improve student achievement in elementary, middle and high schools

A+ Commission

In 1999, the Academic Achievement and Accountability Commission (A+ Commission) was created to provide oversight of the state's K-12 educational accountability system. It is charged with adopting and revising performance improvement goals; identifying performance standards for newly created assessments; adopting criteria to identify successful schools and school districts, as well as those in need of assistance and state intervention measures; identifying performance incentive systems; annually reviewing the assessment and reporting system; and annually reporting to the Legislature.

Expected Results:

Objective 1.5 Ensure that all schools implement a plan for continuous improvement that involves a whole school-community collaborative effort and results in increased student achievement.

Administration

The Superintendent of Public Instruction is a statewide elected official charged with the constitutional responsibility of overseeing Washington's public school system. The state allocates \$5.3 billion per year from state funds for the support of public education. The Office of the Superintendent of Public Instruction (OSPI) apportions the funds to school districts, administers state-funded programs, certifies teachers, collects school data, implements state education laws and programs, and performs other duties as required by the Legislature. In addition, OSPI administers \$650 million in federal funds per year and is accountable for Washington's implementation of federal requirements placed on state education agencies. The policy and administrative agency functions include the Superintendent's office, state policy and federal liaison offices, budget and fiscal services, communications, human resources, and agency support information technology services. Expected Results:

Administration will provide assurance that the agency will comply with all relevant federal and state laws and regulations, maintain the agency budget within appropriated levels, and a high-level academic program for deaf and hard of hearing student from across the state. Additionally, the agency will provide for a safe learning environment for staff and students as demonstrated by the following safety measures. 1. Ensure that all employees demonstrate safe working practices, 2. All direct service staff will demonstrate knowledge of current educational reform, 3. That all students will demonstrate knowledge and understanding of the school-wide adopted safety curriculum, and 4. Students will demonstrate the ability to respond to life threatening situations on campus by conducting emergency drills.

Assessment

Assessment provides all schools in Washington with tests to measure student achievement of basic academic requirements and more advanced skills. The division develops or selects and administers all state assessments and reports achievement data for individual students, schools, districts and the overall state. This information helps districts and schools refine instructional practices and focus curriculum. Tests administered statewide include the Washington Assessment of Student Learning (WASL), the Iowa Tests of Basic Skills (ITBS), and the Iowa Tests of Educational Development (ITED), and an alternative assessment for special education students. In addition, programs which focus on the federal requirements for demonstrating adequate performance for the federal No Child Left Behind Act are within this activity.

Audit and Management Resolution

This office acts as audit liaison between OSPI and state and federal agencies. This unit ensures that OSPI complies with state and federal audit requirements, resolves all audit findings, conducts limited scope federal audits of districts that spend less than \$300,000 of federal funds, and provides technical assistance to OSPI and school districts.

PM 5.2.3 Reduce to zero the agency's exposure to audit issues from state and federal audits by 2004.

Bilingual Education

State and federal laws require public schools to provide instructional assistance to students whose first language is not English. The purpose of bilingual, or language acquisition, education is to ensure that students receive grade-level instruction while they develop the English language skills to study at grade level in a regular English classroom. The funded rate per student in 2003-2004 was \$725.11. It is projected that 70,800 students will be served per year during the 2003-05 Biennium. The state bilingual program is defined as a basic education program. Federal programs also provide funding to meet the special needs of migrant children, including providing those students an opportunity to meet high academic standards, coordination of intra- and interstate migrant services, and encouraging family literacy. In addition, this activity provides for statewide technical assistance for school districts receiving federal grants related to bilingual and migrant educational programs.

Braille Production and Distribution

This division assists school districts in meeting the needs of blind and visually impaired children. Services include the production of Braille material for children (and adults); acquisition and distribution of materials and equipment; coordination of purchases for better pricing; and direct and on-line support, including training on new assistive technology. It is also training inmates to produce Braille. (General Fund-State, General Fund-Private/Local)

Expected Results:

WSSB will provide blind and visually impaired children and individuals with appropriate materials, supplies and equipment in a timely manner to facilitate learning on an even pace with their sighted peers. Measurements will be taken in the following areas to address the above statement. Districts ordering textbooks, materials and equipment will be provided these materials when needed by the student. (NOTE: In order to facilitate this districts are notified that orders for the fall must be placed in the spring of each year to source and/or produce the materials.) WSSB will work with districts to implement a student registration fee system in order to have the necessary working funding to provide the service that districts are requesting. WSSB will implement an on-line sourcing, registration, and search program that will be web-based to assist in the efficient operation of the resource center. Eighty percent of local districts will rank the resource center's service as 4.0 or higher with 5.0 as the highest measure.

Outcome Measure: Provide quality services that are cost effective in meeting customer needs. Eighty percent of WSSB customers will rate services and products at 4.0 or higher. Data will be compiled from all program areas.

Certification

This division of OSPI oversees the activities of the Professional Education and Certification program as well as the Community Outreach program. Primary efforts are focused on developing professional educational policies to ensure that educators are prepared to help students meet high standards, processing applications for teaching and administrative certificates, advising constituents on certification requirements, and conducting focused outreach programs.

Charter Schools

Washington charter school legislation establishes public charter schools for the primary purpose of providing more high-quality learning environments to assist educationally disadvantaged students and other students in meeting the state's academic standards. Charter schools function as an integral part of the public school system, maintained at public expense, free from discrimination and open to all students in the state, and to be subject to the same or greater academic standards as other public schools.

CSD Early Childhood Education and Assistance

Authorized by RCW 28A.215, the Early Childhood Education and Assistance Program (ECEAP) is a comprehensive school-readiness program for three- and four-year-old children and their families living in poverty or otherwise at risk of failure in school. ECEAP's purpose is to ensure all children are ready to succeed in school, regardless of family income or other historic barriers to achievement. Children receive early learning services in literacy, language, math, science, health, medical linkages, and social and emotional development. Since parents are children's first and most important teachers, ECEAP offers family support services to encourage parent involvement, provide education in child development, health and nutrition, and enable family self-sufficiency. ECEAP's 33 public and private community contractors design services within flexible program standards to fit the specific needs and resources of their service area. CTED monitors contracts to ensure compliance with statewide standards, and provides technical support, training and development to contractors.

Curriculum and Instruction - State Coordination

The OSPI Curriculum and Instruction Division works with the Assessment and Research Division to support curriculum, assessment and instructional alignment in Washington schools. Technical support is provided to school districts and educational service districts (ESDs) regarding curriculum, program development, and research-based best practices/instructional strategies that support state K-12 learning goals. The division is responsible for developing the Essential Academic Learning Requirements (EALRs) and aligning them with the WASL test. Education Support Services

Washington School for the Deaf (WSD) provides quality resources to deaf and hard of hearing students. Students at WSD are given the opportunity to compete in varsity and junior varsity sports on a regular basis. Any high school student wishing to participate is given the opportunity. Students benefit educationally from the addition of resources in the form of new materials for the library, which has an inventory of approximately 10,000 books, and the textbook fund which allows the academic program to replace materials in a timely manner. Quality meals enhance the students' ability to be attentive and learn. The open house meetings allow staff to share their knowledge of students and learn new skills as a team.

The school provides day and/ or residential students with a variety of resources including: transportation to and from school for local students; quality nutrient service for students, breakfast, lunch, dinner, and snacks; athletics in the form of varsity and junior varsity sports through the Washington Intramural Activity Association; open house meetings for the teaching and residential staff; and funds for the library. These provide students with the optimal resources to ensure access to a quality education and access to extracurricular activities in the form of competition with their non-handicapped peers

Educational Service Districts

Agency Activity Inventory

by Statewide Result Area

Appropriation Period: 2005-07 Activity Version: 2005-07 Carry Forward Level

Statewide Result Area: Improve student achievement in elementary, middle and high schools

Nine regional Educational Service Districts (ESDs) assist school districts in increasing student achievement, performing fiscal and data processing functions, and meeting state and federal requirements. ESDs play a key role in helping OSPI collect information that drives the apportionment of \$5 billion per year to 296 school districts. State funding provides less than five percent of total ESD funding. The remainder of ESD funding comes from other specialized state and federal programs, and from contracts with school districts.

Expected Results:

PM 3.3.1 By 2007, develop a statewide strategic children's health plan with schools, students, families and state and community partners that addresses physical, social and emotional barriers to learning and living healthfully.

General Apportionment

The Washington State Constitution requires the state to define and fully fund basic public education for all school-aged children. General apportionment funding, the state's largest basic education program, is provided to the state's 296 school districts through a complex formula based on the number of enrolled students (approximately 1 million), staffing ratios, average salaries, and other factors such as adjustments for very small districts. The state funding formula provides 67,500 staff for basic education. The funds are allocated to, and spent by, the districts and their elected school boards. Approximately 69 percent of all district expenditures are for teaching, 13 percent for administration, 9 percent for school facilities and operations, and the remainder for pupil transportation and food services.

PM 1.1.1-1.4.4 (Goal 1) Each of Washington's diverse students demonstrates high levels of achievement in the four state learning goals and graduates from high school ready to implement a positive plan for his or her future.

Institutional Education

The state provides basic education and necessary support services to school-aged children who reside in institutions such as county detention centers, group homes, institutions for neglected and delinquent children, residential rehabilitation centers, and state correctional facilities. There are a total of 38 institutions receiving these funds. During the 2003-05 biennium it is projected this activity will serve an average of 2,100 students in 220 day educational programs per year.

WSSB will provide IEP and assessment identified students with individualized and/or small group intensive orientation & mobility and/or daily living skills instruction on a weekly or more frequent basis, as needed. WSSB will afford its students the opportunity to learn about, access, and participate in an array of on-campus and community-based recreation/leisure activities. Measurements will be taken in the following areas to address the above statement: Using established task competency checklists for orientation and mobility and daily living skills, WSSB will conduct an initial ability-level assessment and on-going semester, annual, or exit skills updates, determined by student enrollment period. Ninety percent of students will demonstrate a minimum 50 percent skill growth rate between the initial evaluation and follow-up age or cognitively-based skill measurements. During WSSB enrollment, students will identify and demonstrate the ability to access a minimum of four recreation/leisure activities s/he has experienced and intends to incorporate into her/his post-WSSB life.

Learning Assistance

State Learning Assistance Program and Federal Title I funding provide instructional help to children whose academic performance is below average. Students receive assistance through one-on-one or small-group instruction, in addition to regular classes. State Learning Assistance funds are allocated to districts based on a formula which includes district enrollment, percent of district's students scoring in the lowest quartile of nationally normed tests, and the district's percentage of students eligible for free and reduced price lunches (FRPL) when the district's FRPL percent is greater than the state average. Federal Title I funding from the Elementary and Secondary Education Act (ESEA) is the largest federal program supporting K-12 educational services. Title I funds are provided based on a complicated funding formula, which targets funding to schools and districts with higher percentages of students in poverty. (General Fund-State, General Fund-Federal)

Local Effort Assistance

Statewide, school districts receive about 15 percent of their revenue from local voter-approved property tax levies. Since some school districts have lower property values than others, local school district levy rates vary. The lower the property values, the higher the levy rates tend to be. The state "equalizes" local funds by providing matching state funds for school districts with higher than average levy rates. School districts must pass a local maintenance and operations levy to be eligible for local effort assistance funds.

National Board for Professional Teaching Standards

The certification process by the National Board for Professional Teaching Standards (NBPTS) requires an educator to demonstrate teaching practices that meet high and rigorous standards. Washington State supports this effort by providing bonuses for over 400 national board certified teachers. In addition, private foundations have contributed resources for assisting teachers with the fees and in preparing the materials required for the certification process.

On-Campus Education Program

Deaf and hard of hearing students from the ages of three to twenty-one are educated at WSD. Students who are educated on WSD's campus are provided with academic courses and curriculum which matches the Washington State Essential Learnings. Emphasis is given to communication; all students are given optimal assistance in the area of communication: reading, writing, and verbal/ signs. All courses and grade levels are taught by certificated teachers who communicate directly with students in sign language and have expertise in the area of deaf education and hold master degrees. Students are given optimal services in the area of transition services, vocational assessment, audiology, special language services, counseling, psychological supports, and social work.

The WSD residential program is part of an integrated approach to the learning and development of our students focusing on the safety and care of students. Students develop a positive self-esteem and self-identity through multi-aged family groupings, social interactions, and low staff-to-student ratios. The program offers independent living skills, academic assistance, a language-rich environment, celebration of cultural diversity, after school programming and community-based involvement. In addition to providing a linguistically and culturally enriched environment, the WSD residential program offers a variety of recreational sports, such as football, soccer, volleyball, track, basketball, swimming, and Special Olympics. Other activities include outdoor recreation, field trips, arts and crafts, dances, and social activities for all WSD students. The residential program begins after the end of the academic day schedule and ends at the start of the academic program.

Each school district electing to provide student transportation to and from school is entitled to state pupil transportation funding. The calculations for a district's pupil transportation allocation includes adjustments for the number of students transported and distance weighting factors. The state does not include students within one radius mile under the general pupil transportation allocation. However, students in grades K-5 living within one radius mile, whether transported or not, generate additional funding which can be used to transport these students or to create safer walking conditions. The state also pays for the replacement of district school buses through a depreciation system. Schools transport 480,000 students 90 million miles annually.
